Our Chapels

Springvale Botanical Cemetery's five elegant chapels and multipurpose space, The Atrium, provide our communities with contemporary facilities, superior amenities, flexibility and comfort. Available for a variety of services prior to cremation or burial, and for memorial services, these facilities can be tailored to suit individual needs.

Complemented by the tastefully appointed Clarence Reardon Centre function rooms and an on-site florist, these beautiful community facilities provide a seamless service to families.

At your request, crosses can be displayed within the chapels.

Audio visual presentations

Funeral Directors and customers who wish to create digital content for use in our chapels and function rooms should note the following to ensure the smooth operation of each service:

- Common media types are supported such as DVD, CD and USB.
- Digital files/formats contained on the above media are supported, such as MP3 and MP4.
- Digital content is played in the chapels using media players such as VLC and Windows Media Player.
- Detailed 'AV Media Guidelines' are available for Funeral Directors containing specific information regarding each media type and digital content supported by our AV systems. This should be distributed to customers and provides further guidelines and assurance their content will play.
- All digital content must be presented to SMCT at least 24-48 hours prior to a service for testing. This provides assurance to customers on the day of their service and avoids potential compatibility issues.
- Digital content must be presented in a 'playable' format; SMCT is unable to create/edit content, nor mix content on behalf of customers (such as playing music and advancing a photo slideshow at the same time).
- Chapel attendants have the capabilities to cue digital content in accordance with an order of service.
- Services being conducted in the Boyd or Renowden Chapels can be viewed in The Atrium via a flat screen television (fees apply).

Viewings

Chapels
